

CAMPUSES ON CLOUD 9:

Higher Ed IT's Drift Towards the Cloud

Campus Technology conducted a survey of higher education IT administrators as it relates to the migration to the cloud and the security concerns involved:

Only **6.4%** of colleges and universities have fully integrated a cloud solution

77.5% of colleges and universities are developing a migration plan or have already begun the cloud migration process

Why Move to the Cloud?

93.7%
INCREASE
in overall efficiency

46%
IMPLEMENT
new products and services

50%
REDUCE
total costs and budget strains

50%
IMPROVE
admin, staff and faculty mobility

The Migration Is On

What do you want in your cloud atmosphere?

Collaboration & Conferencing
