

Pure as-a-Service: Efficient, High-performing Storage as a Service for Higher Education

A single subscription for on-premises and public cloud from the company that unifies hybrid clouds

Higher education institutions — regardless of size — need extreme adaptability.

Students expect lightning-fast connectivity no matter where they are.

Research programs require robust, scalable infrastructure to rapidly collect, store, and analyze massive amounts of data.

24/7 uptime and optimum performance are non-negotiable.

Institutions require a Modern Data Experience™ that delivers new options as IT requirements and expectations grow and budgets shrink.

Pure as-a-Service™ offers:

100% OPEX-based, hybrid-cloud storage as a service for block, file, and object storage

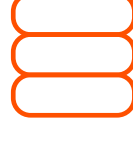

Pay-per-use pricing — you only pay for what you use

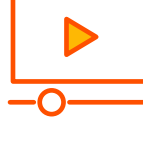

A single subscription and single set of services — no hardware to buy and no hidden costs

A fully scalable and elastic platform

Enterprise-grade storage that is non-disruptive

Reserved capacity at a discounted rate and on-demand capacity at a standard rate

Enterprise-grade Performance and Features

99.9999%

Proven 99.9999% storage availability.* SLA guarantees no planned downtime.

Most institutions operate with a lean staff and need solutions that require little management and maintenance.

Pure as-a-Service makes it easy for you to:

Get in and ramp up (start small and grow)

Optimize costs with no long-term commitments

Embrace hybrid cloud with [Pure Cloud Block Store™](#)

Higher education institutions need simple, cost-effective solutions without disruption or downtime.

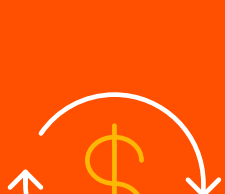

Pure as-a-Service is always Evergreen™, offering:

Rapid innovation without forklift upgrades

No data migrations

No costly rebuys

White-glove premium support

*Based upon FlashArray™ uptime.
