Use the data for more than retention - understand where those resource bottlenecks are

Number of absences reported in advance by students in 2021:

115,700

What our customers are saying about Attendance:

"The University has a duty of care for students, who are going through completely new life experiences throughout their academic journey. It is vitally important that institutions can identify students who may need additional support, and attendance can help us here." - Gary Brewerton, Loughborough University Middleware and Library Systems Manager
